ABC Corporation
Notes of Financial Statements (Unaudited)
From Inception to December 31, 20XX

NOTE 1 – ORGANIZATION

ABC, Inc. was established in the State of Delaware on November 21st, 20XX.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – Our financial statements are prepared in accordance with U.S. generally accepted accounting principles (“GAAP”). ABC follows a fiscal calendar ending on December 31st of each year.

Use of Estimates- – The preparation of financial statements requires management to make estimates and assumptions that may impact reported assets, liabilities, revenues, and expenses. ABC evaluates these estimates regularly and adjusts them as necessary to reflect the most current information available.

Cash and Cash Equivalents – Cash and cash equivalents include cash balances and highly liquid investments with maturities of three months or less at the time of purchase.

Fair Value of Financial Instruments - ABC adheres to ASC 820 “Fair Value Measurements and Disclosures,” which classifies fair value inputs into three tiers based on observability in the market. ABC' financial instruments are primarily categorized within Level 1, utilizing quoted prices in active markets for valuation purposes.

Concentrations of Credit Risks - The company's financial instruments, particularly cash and cash equivalents, are exposed to credit risk concentrations. However, ABC mitigates this risk by placing funds with reputable financial institutions and regularly assessing the creditworthiness of counterparties for any financial transactions.

Revenue Recognition - ABC recognizes revenue following ASC 606, “Revenue Recognition,” which entails a five-step procedure. This includes identifying contracts with customers, determining performance obligations, allocating transaction prices, and recognizing revenue when or as performance obligations are satisfied. ABC evaluates these steps for each customer contract upon signing.

Income Taxes - As ABC is structured as a pass-through entity, any income tax implications are the responsibility of the company's owners. Consequently, no provision for income tax is reflected in the Statement of Operations.

Recent Accounting Pronouncements - ABC monitors ASUs issued by the FASB to amend ASC. Management assesses the impact of these pronouncements on the company's financial statements. Currently, management believes that recent ASUs either offer supplemental guidance, provide technical corrections, are not applicable, or are not expected to significantly impact ABC' financials.

NOTE 3 - RELATED PARTY TRANSACTIONS

ABC complies with ASC 850, “Related Party Disclosures,” regarding the identification and disclosure of related parties and related party transactions. At present, there are no related party transactions requiring disclosure.

NOTE 4: CONTINGENCIES, COMPLIANCE WITH LAWS AND REGULATIONS

ABC is not involved in any pending or threatening litigation, and the company is in compliance with all relevant laws and regulations.

From Inception to December 31, 20XX

NOTE 5: DEBT

As of December 31, 20XX, ABC does not have any outstanding debt.

NOTE 6 - SUBSEQUENT EVENTS

Management has considered subsequent events reviewed through March 31, 20XX, which is the date the financial statements were prepared. There were no subsequent events that required recognition or disclosure.

NOTE 8 – GOING CONCERN

The accompanying balance sheet has been prepared on a going concern basis, reflecting the entity's expectation to realize assets and meet liabilities in the normal course of business. As ABC has recently been established and has yet to commence principal operations, it anticipates incurring losses before generating positive working capital for an indeterminate period. The company's ability to sustain itself as a going concern over the next twelve months hinges on its capacity to generate revenue, secure financing, and effectively allocate capital to achieve profitable operations. While management is committed to these objectives, there is inherent uncertainty regarding ABC' ability to sustain itself as a going concern for a reasonable period.
